BIBLE SCHOOL

Programme 2025

How do we live the Christian life in a constantly changing world where Christian values are gradually being eroded?

How do we face the increasing pressures of life? How do we cope when things happen in life and we find our faith under attack and we become discouraged and maybe even despairing?

Life is sometimes lived on the mountaintops of blessing or in the valleys of apparent darkness. We are all different 'all wired differently' and what may affect one person dramatically may not be a problem to someone else. These series of studies, for the most part, are based on Paul's wonderfully practical letter to the Ephesians. And we begin with a look at the second most popular book after the Bible: Pilgrim's Progress.
